

How Updox Can Help You Achieve Stage 1 Meaningful Use Criteria

Fully integrated communications platform

SIGNIFICANTLY IMPROVING THE EFFICIENCY OF YOUR FRONT OFFICE STAFF WHILE SAVING YOU MONEY

Updox helps practices meet several Core and Menu Criteria for Stage 1 Meaningful Use:

Core Criteria # 12 – Provide patients with an electronic copy of their health information upon request

Updox Solution – Updox gives practices the ability to instantly share messages, documents, and images with patients

Core Criteria # 13 – Provide clinical summaries for patients for each office visit

Updox Solution – Updox allows patients to view, print and download their clinical information and even ask questions via the portal

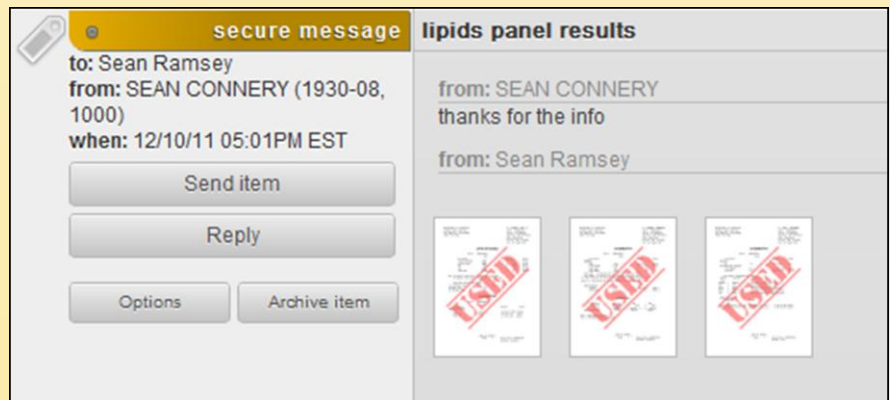

Core Criteria # 14 – Exchange key clinical information among providers of care ([download for free at www.updox.com](http://www.updox.com))

Updox Solution – Updox offers integrated secure email to invite your colleagues to download and exchange clinical information for free

Menu Criteria # 5 – Provide patients with timely electronic access

Updox Solution – Updox lets patients view and download their CCR and CCD records
