

Inefficient Healthcare Faxing & Document Management

Good for your step counts, bad for your business

How many steps do you take walking back and forth to the fax machine each day? It's estimated that **70%** of healthcare organizations still rely on faxes. With Updox Electronic Fax, you can easily transition from traditional fax machines and servers to efficient all-digital communications.

Traditional faxing costs your practice time and money

THE TYPICAL PRACTICE SPENDS:
 \$80 per month on toner
 \$30 per month on a fax line
 \$25 per month on paper
 \$50 per month for shredding
 4 minutes per fax in staff time

Updox is 3 simple and reliable steps
